“Change the way you see the world; unforgettable adventures to satisfy the soul”

This statement has been the beating heart of HX Expeditions' ethos throughout their decades of innovative expedition cruising; a story which now spans an extraordinary 130 years. During this time, HX Expeditions has left the beaten path far behind, escorting countless curious travellers to the end of the earth and back without ever compromising on comfort, style or sustainability.

Despite venturing to some of the most isolated corners of the globe, HX Expeditions is committed to maintaining a 'home away from home' feel on board their Scandinavian-inspired ships. The fleet's sleek vessels act as floating base camps to which you eagerly return at the end of each exciting day, with cutting-edge technology and a team of passionate experts by your side at every turn. In keeping with their overarching philosophy, the HX Expeditions fleet is specifically designed to sail through ecologically sensitive areas. It includes two hybrid ships, placing them squarely at the forefront of the sustainable cruising movement.

HX Expeditions strongly believes that the only way to get to the heart of these unique destinations is through uninterrupted immersion. Consequently, entertainment takes the form of educational activities. Guests on board have the opportunity to unlock their inner Citizen Scientist in the high-tech Science Centre, as well as attend dynamic talks and lectures delivered by their Expedition Team who are experts on a variety of subjects—anything from palaeontology and oceanography to history and anthropology.

A journey with HX Expeditions means once-in-a-lifetime moments multiple times a day. From breathtaking wildlife encounters and cultural immersion to intrepid adventures and erudite experiences, every day aboard a HX Expeditions ship offers new perspectives so intriguing, you hadn't even thought to add them to your bucket list yet. You're ultimately left with a deeper appreciation for the incredible planet we call home.

A message from JAMES

Dear Fellow Cruiser,

Wow! What a year it's been for us already here at Panache Cruises—and we're only halfway through! We've ushered in a new era of cruising with Panache Expeditions: a new sub-brand of our business dedicated to leading our customers down the road less travelled and helping them create unique travel memories that will last a lifetime. That's why we're so proud to partner with HX Expeditions, who just so happen to be something of an authority on the subject.

Nowadays, luxury and intrepid expedition adventures go hand in hand, and I personally believe that HX Expeditions have some of the most impressive ships in the industry. Long gone is the age of purely functional, nondescript expedition vessels, designed only to get you from A to B; HX Expeditions' sleek, Scandinavian-inspired fleet boasts the luxurious amenities, exceptional dining and comfortable cabins that you would expect from any luxury ocean or river cruise ship.

What's more, they believe that making the most of your trip shouldn't be a luxury—that's why daily excursions, drinks and all-inclusive meals come at no additional cost.

Sustainability, education and preserving our planet for future generations are at the heart of everything HX Expeditions does. Their pledge to benefit local communities and become 'nature positive' by 2030 aligns with our own values here at Panache Cruises, and with two hybrid ships launched in the past few years, it's clear that HX Expeditions are committed to their goal of being the leading expedition cruise line for sustainability.

Once-in-a-lifetime itineraries, sophisticated luxury and mindful travel, HX Expeditions is a cruise line that demands no compromise, offering you the very best of everything. I, for one, cannot wait to cruise with them—I hope to see you on board!

All the best,

James Cole

The Edge *of* Awe

Antarctica

Written by Megan Maguire

An obscure paradise at the end of the Earth, Antarctica takes the idea of “the road less travelled” to the next level.

A boundless, frost-tipped kingdom of pristine snowy vistas, gleaming glaciers and abundant wildlife, this awe-inspiring polar continent is the only one on Earth with no permanent human residents. With towering cliffs and twisting ice formations that wouldn't be out of place in an avant garde art installation, Antarctica's jaw-dropping scenery presents the perfect backdrop for forging lifelong travel memories with leading expedition cruise line, HX Expeditions.

There's no shortage of ice-laden activity at this end of the world. Embark on an intrepid hike across untouched landscapes, take part in a guided meditation underscored by haunting whale song or simply sit quietly on deck and watch the polar sunset paint the skyline pink before settling in for a night of camping beneath the stars—there is no shortage of once-in-a-lifetime moments to be enjoyed on an HX Antarctic expedition. Of course, these picture-perfect icy tableaux would be hollow without the teeming animal kingdom that brings this region to life.

A HX Antarctic voyage affords travellers the unique opportunity to get closer than the vast majority of the population ever will. No longer confined to the realms of David Attenborough documentaries, you can observe languishing seals, swooping skuas and snow petrels from mere metres away, whilst penguin hatching season takes place right in front of you.

Embark on a guided Antarctic Peninsula excursion to observe mischievous Adelie and Gentoo penguins frolicking on the ice, or take to the seas in a small expedition boat and discover for yourself why the Southern Ocean is considered the best spot on Earth for whale-watching. Eye to eye with the most majestic creatures on Earth, you'll be close enough to feel the spray from a humpback whale or orca on your skin as blue whales glide silently beneath you.

Whether you're traversing Antarctica on a Zodiac, a kayak or snowshoe-clad feet, the echoes of history's famed explorers will be all around you, each adventure is handpicked by us to show you the beauty and wonder of the White Continent through the eyes of the pioneers who put it on the map.

Day 1-2 **Buenos Aires, Argentina**

Your journey begins in Buenos Aires—enjoy tantalising cuisine and flamboyant dancing in the Argentine capital, a vibrant blend of Latin American spirit and European flair.

Day 3 **Ushuaia, Argentina**

Catch a flight to Ushuaia, the colourful capital of the Tierra del Fuego Province, and the world's southernmost city. After climbing aboard your hybrid-powered expedition vessel, you'll have the rest of the day to kick back, relax and enjoy all the luxurious amenities the ship has to offer.

Day 4-5 **Drake Passage**

It takes two days to cross the famous Drake Passage, during which time the Expedition Team will ensure you are fully equipped to make the most of your Antarctic expedition. Embrace education by day with Science Centre

experiences and talks from leading experts, before enjoying some R&R in the evening.

Day 6-10 **Antarctica**

You'll be lost for words at your first glimpse of Antarctica, the sweeping glaciers and towering icebergs emerging suddenly from the mist on the horizon. As if the astonishing views from your cabin aren't enough, there will be adventures at every turn during the next few days—from whale-watching expeditions and penguin safaris to kayaking excursions, birdwatching and even camping beneath the stars, every day brings something entirely unique.

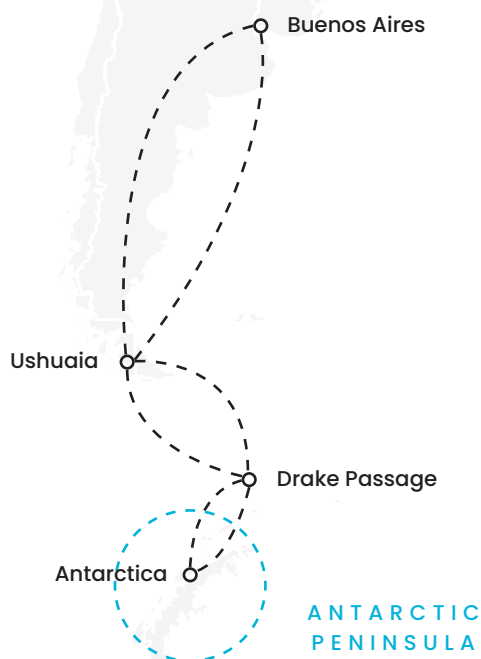

Day 11-12 **Drake Passage**

After five unforgettable days in Antarctica, you'll begin your voyage back to Argentina, retracing your path back up the Drake Passage. Make sure to make the most of your last couple of days on

We've Been On Board

"Overall, HX Expeditions' Antarctica itineraries offer a once-in-a-lifetime opportunity to immerse yourself in one of the world's last true wildernesses, experiencing the breathtaking beauty and ecological richness of the Antarctic continent. My trip to Antarctica was simply the best trip and experience of my entire life, and I think moving forward will prove hard—if not impossible—to top. From whale watching to polar plunging, the trip was life changing for me as an individual."

In Darwin's Footsteps

Galápagos Islands

Boasting the kind of untamed beauty and lush wilderness usually confined to paintings and history books, the Galápagos Islands proudly stand as a living, breathing museum with over 9,000 unique species co-existing in a state of perfect harmony.

As we walk in the footsteps of celebrated naturalist Charles Darwin, and bear witness to the thriving ecosystems that remain untouched by modern life, it's easy to understand what may have driven him to map out his groundbreaking Theory of Evolution and change our understanding of the natural world forever. Indeed, Darwin's curious spirit lives on in the hearts of HX Expeditions: a team of scientists, botanists and wildlife specialists who have dedicated their lives to promoting conservation efforts and preserving the region's extraordinary biodiversity for generations to come.

The vibrant flora and fauna of the Galápagos Islands truly must be seen to be believed, each path we take leading somewhere completely unique. From meandering hikes through the verdant Pampa zone, with ferns and orchids rising either side to long treks along amber roads in the region's arid territory, a HX Galápagos expedition leads you through a chain of self-contained worlds. Make sure you have

your binoculars at the ready, as each and every day is like being in the world's most immersive zoo, with blue footed boobies, lava lizards, jewel-toned finches, legendary giant tortoises and more to be found everywhere you look.

Away from the hiking trails and dense vegetation, you'll find that the cerulean waters surrounding the islands are home to treasures of their own. Take a ride on a glass bottom boat, or else duck beneath the waves while snorkelling to see the region's multi-hued coral reefs, as well as the turtles, sea lions and marine iguanas that call these waters home.

From San Cristóbal and Santa Fe to Santa Cruz and Española, all the wonders of this UNESCO-protected volcanic archipelago and the last vestiges of South America's ancient Inca empire are yours for the exploring for the exploring on a HX Galápagos cruise.

GREENLAND

Quietly tucked away in one of the lesser-explored corners of the globe, Greenland is something of an unsung hero. Its natural beauty, wildlife and vibrant culture remain a shrouded mystery.

Greenland is something of an undiscovered gem. For those curious enough to meander through the still waters of the world's biggest island's with HX Expeditions, the isolation is all yours to revel in.

With pale skies and awe-inspiring glaciers as your constant companions, you'll sail, enthralled, through surreal landscapes, including the soundless tranquillity of Illulissat Icefjord and the captivating Disko Bay, with its colossal icebergs stretching infinitely into the blue horizon.

Don't forget to look up! You might just see the glowing ribbons of the Aurora Borealis or the flurry of a snowy owl's wings skimming the deck. Back on terra firma, you'll experience a veritable Arctic safari, with Arctic foxes and polar bears wandering across the craggy skyline, and various species of whale gliding through the waves.

With its frost-capped mountains and welcoming towns studded with brightly painted buildings, Greenland seamlessly marries modernity with tradition and celebrates its layered heritage every step of the way. Through a combination of cherrypicked activities, including nature walks, char fishing and lectures delivered by everyone from local Inuit residents to HX Expeditions' own geologists and mythology experts, guests are furnished with the tools to learn alongside the region's insular communities, and forge memories that will last a lifetime.

From the picturesque strait of Vaigat Sound all the way to the secluded sanctum of Kalaallit Nunaat and teeming wildlife in the Northeast Greenland National Park, this is a destination just waiting for you to uncover its many secrets.
